

# Marketing Guide

## Background:

- **Background information:**

Recent graduates may not be fully professionals yet, but we want to recommend the best jobs to recent college graduates based on their skills and preferences to:

- 1- Increase chances to recent graduates to get a great hire.
- 2- Expand the network to create a professional community.
- 3- Discover emerging talent early.

- **Problem Statement:**

There is a problem for a recent graduate to find the appropriate job.

- **Product Goals:**

- We will add some tips in the application to expand their network communication.
- We will find some hiring opportunities or internships for them.
- We will add some courses and small projects to help them to find and enhance their career.
- We will add the director feature with a minimum price subscription to help them use the application and help them to develop their personal account and find some hiring opportunities or internships.

## Market background:

We will write a short description of our market and audience:

- **target audience:**

- Fresh graduates
- Unemployment's peoples.
- Senior students who want to improve their skills.

- **target market:**

- We will launch our application in India.
- There were 77 LinkedIn users in India in May 2021, which accounted for 5.6% of its entire population.
- In 2024, India's estimated unemployment rate amounted to approximately 7.5% which compared to 103.5M of the total population.

- **Our competitors:**

- Indeed
  - Indeed, is an efficient job search engine for both job seekers and employers around the world. It is accessible in more than sixty countries and twenty-eight languages. The website is built with Google-like search engine algorithms, allowing job seekers to search for jobs and apply to positions that match their skills, experience, expertise, and career path seamlessly and easily.
- ZipRecruiter
  - ZipRecruiter is used by as many as 100,000 companies. It allows you to post vacancies on over 50 platforms and social networks to help you gather candidates from all places in one system. This way, you can screen, discuss, share, and evaluate their resumes with the team. They have a huge database already has 2 million resumes and information of about a thousand candidates.
